

## The UTC Region 6 Meeting & EXPO IS RESCHEDULED

### **UTC Region 6 Meeting & EXPO Rescheduled to October 12-14**

**Exhibits:** Monday, October 12th

**Sessions, Member Meeting and Training:** Tuesday, October 13<sup>th</sup> – Wednesday, October 14<sup>th</sup>

We are excited to announce that UTC Region 6 Meeting & EXPO 2020 will take place October 12-14, 2020, at the DoubleTree by Hilton Kansas City in Overland Park, KS.

Many of our members, speakers, and conference attendees are facing travel restrictions that would prevent them from attending our conference during our regularly scheduled dates from March 23-25. Therefore, we are rescheduling the workshop to October 12-14.

Keeping the UTC community informed is our top priority, and we understand there will be a lot of questions and concerns following this announcement. To help answer your questions, we have created FAQs below.

We will provide you with as many details as possible as often as possible, and we truly appreciate your patience as we move forward. For questions and concerns, please contact [meetings@utc.org](mailto:meetings@utc.org).

We want to thank everyone who helps to make UTC possible and recognize that our event does not happen without your support. Your work is always critical, and now more so than ever. The UTC staff takes great pride in representing you and providing venues like Telecom & Technology to share best practices, influence policy, and offer support.

The outreach and comments we've received over the last few days and weeks make clear lucky we all are to be part of this supportive, tight-knit industry. As everyone has been reminding us, great things happen when the community comes together and connects at UTC events.

We look forward to welcoming you to Kansas City in October. We know our community will come together and play a significant role in helping everyone through these times. The UTC team extends to all our best wishes for health and a safe course forward.

Thank you,

Karnel Thomas, UTC's SVP, Meetings & Membership
